PROFESSIONAL SUMMARY

Final-year BSc (Hons) Data Science undergraduate at SLTC with a strong passion for machine learning, artificial intelligence, statistical analysis, and data analytics. Skilled in extracting insights from complex datasets, developing predictive models, and communicating findings through data visualization. Eager to contribute analytical thinking, problem-solving skills, and data-driven solutions that support informed business decisions and organizational growth.

EDUCATION

Sri Lanka Technology Campus

BSc (Hons) in Data Science

Expected Graduation: 2027

Current GPA: 3.73

Relevant Coursework

- Machine Learning
- Deep Learning
- Artificial Intelligence
- Business Intelligence
- Big Data
- Tensors & Graphs

GCE Advanced Level (A/L) | 2021

WP/Jaya/P/Dharmapala Vidyalyaya

Biological Science Stream (Biology, Chemistry, Physics)

PROJECTS

Telco Customer Churn Prediction – End-to-End ML & MLOps System

- Built an end-to-end MLOps pipeline to predict telecom customer churn, automating data processing, model training, experiment tracking, and deployment.
- Implemented version-controlled ML workflows with automated pipelines and deployed a real-time churn prediction API using Docker.
- **Techniques & Tools:** Python, Scikit-learn, Pandas, NumPy, DVC, DAGsHub, MLflow, Apache Airflow, FastAPI, Docker, DagsHub

E-Commerce Big Data Analytics Pipeline

- Developed an end-to-end big data analytics pipeline to process, transform, and analyze large-scale e-commerce datasets.
- Implemented data ingestion, ETL processing, and analytics workflows using distributed data processing technologies.
- **Techniques & Tools:** Python, Pandas, NumPy,PySpark, MongoDB Atlas, Google Colab, Jupyter Notebook, GitHub

End-to-End NLP Hate Speech Classification

- To classify online text content as hate speech or non-hate speech.
- Implemented text preprocessing, feature extraction, model training, evaluation, and prediction workflow for automated content moderation.
- **Techniques & Tools:** Python, Pandas, NumPy, NLTK, Regex, TensorFlow, Keras, Scikit-learn, FastAPI, Uvicorn, Jinja2,GitHub, Jupyter Notebook, Docker.

Customer Demand Forecasting System

- Developed a machine learning-based demand forecasting system to predict future customer demand and support data-driven inventory and business decisions.Implemented data preprocessing, time-series analysis, feature engineering, model training, and performance evaluation.
- **Techniques & Tools:** Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Time Series Analysis, Feature Engineering, Machine Learning Models, Jupyter Notebook, VScode, GitHub.

SKILLS

Technical Skills

- Programming: Python, SQL
- Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Power BI
- Machine Learning & AI: Scikit-learn, TensorFlow, PyTorch, NLP, Deep Learning
- Databases: PostgreSQL, MongoDB, MySQL
- Big Data & Data Engineering: Apache Spark, PySpark, Apache Kafka, ETL Pipelines, Data Warehousing
- Development & Tools: Git, GitHub, Docker, Jupyter Notebook, VS Code

Soft Skills

- Problem Solving - Developing effective solutions to complex technical and real-world challenges.
- Analytical Thinking - Analyzing information, identifying patterns, and making data-driven decisions.
- Teamwork & Leadership - Collaborating with teams, coordinating activities, and supporting project success.
- Project Management - Planning, organizing, and managing tasks to deliver projects within deadlines.
- Adaptability & Continuous Learning - Quickly learning new technologies and continuously improving technical skills.

LEADERSHIP & VOLUNTEER EXPERIENCE

Secretary (Executive Committee) - IEEE Computer Society Student Branch Chapter of SLTC | 2025 - 2026

Managed chapter documentation, coordinated executive activities, and supported GitGenius'26, CodeMania v6.0, Lumora v5.0, and From Awareness to Action.

Editorial Deputy Head (Subcommittee) - IEEE CS SBC of SLTC | 2024 - 2025

Led editorial activities by reviewing and coordinating promotional content for chapter events.

Deputy Head – Logistics Team | ITIA Career v1.0

Coordinated logistics and operational activities to ensure successful event execution.

Secretary Team Member | MASTER DESIGNER v3.0 | Media Unit, SLTC

Supported event documentation, coordination, and administrative operations.

Content & Caption Team Head | Sipsari Yathra | LEO Club, SLTC

Led content creation and social media communications to promote the project.

CERTIFICATES & ACHIEVEMENTS

Data Science 101 – IBM SkillsBuild

Completed foundational training in Data Science concepts, including data analysis, data-driven decision-making, and the role of data science in solving real-world problems.

InspiHER{Tech} V4.0 – HackNova Competition | First Runner-Up SLTC

By developing an innovative technology solution, demonstrating problem-solving skills, creativity, teamwork, and technical knowledge.

IEEE Xtreme Programming Competition 19.0 – Participation Certificate

Participated in the global competitive programming challenge, strengthening algorithmic thinking, problem-solving, and programming skills.

BioFusion Hackathon – Participation Certificate | IEEE Engineering in Medicine and Biology Society (EMBS)

Participated in an interdisciplinary hackathon focused on applying technology and innovation to healthcare-related challenges.

Emerging Scholars' Research Programme – Certificate Phase Completion | Faculty of Postgraduate Studies & Research, SLTC

Successfully completed the certificate phase of the Emerging Scholars' Research Programme, gaining exposure to research methodology, academic writing, and innovation practices.
